# hi-lo

designed by burgtec

## Specifications

Electronically operated sit stand desks are the ideal solution for changing your working position easily and quickly at the touch of a button. Burgtec have designed the Hi-Lo health station which is manufactured in Balcatta WA. Hi-lo is made to order and is suitable for rectangular, L-shape & 120 degree layouts to your specifications.

## PIEZO anti-collision software

The built-in PIEZO sensor feels for any obstruction when raising or lowering the desk, then halts and reverses to avoid collision. The sensor is completely integrated in the column with no visible changes and no extra mounting.

## DESKLINE® Desk Control™ integrated software

The new DESKLINE® Desk Control™ software can be installed on your computer (PC or MAC) making the use/adjustment of your desk very intuitive in your daily work.

The software program contains the typical control features like up, down adjustment, up to 3 memory positions and height read-out. Additionally, the program reminds you to adjust your desk, counting the time standing as well as the calories burned. The intervals are self-elected making Desk Control a very personal tool.

## Materials and Finishes
